

**Assessment Criteria**

- ✧ The nature and scope of the project have to be consistent with the aims of the fund
- ✧ The project should be likely to have a significant impact on community awareness of sustainable development principles and practices
- ✧ The number of participants directly involved in the project is important
- ✧ The involvement of partner organisations is encouraged
- ✧ The availability of potentially more appropriate sources of funding would be considered.
- ✧ The proposed implementation programme should be viable
- ✧ Applicants should have a demonstrable track record.
- ✧ Where there are similar proposals from different applicants, in terms of the nature of project and target groups, those that most closely match the agreed funding criteria are more likely to be selected.
